

Romania power plant energy storage

Overview

In an accelerated wave of investments, companies in Romania are combining battery energy storage systems (BESS) with solar, hydro or wind energy, or building independent storage facilities. The list includes big names such as Verbund, Engie R.Power, Hidroelectrica.

Romania power plant energy storage

Romania is building one of Europe's biggest power plants

The location in Constanta County could accelerate the development of a national battery industry and attract new investments in the green energy sector, strengthening ...
