

# **Saint Kitts and Nevis Energy Storage Equipment Factory**

## Overview

---

Does St Kitts and Nevis have a national energy policy?

Yes, St. Kitts and Nevis has a National Energy Policy (NEP). The key provisions of this policy include connecting large-scale independent power providers and many distributed renewable energy systems to the electrical grid. Not all generation is made publically available; this chart provides known and referenceable data.

How much does electricity cost in St Kitts & Nevis?

The electricity rates in the Federation of St. Christopher (St. Kitts) and Nevis are \$0.26 per kilowatt-hour (kWh). This is lower than the Caribbean regional average of \$0.33/kWh.

Does Saint Kitts and Nevis have medical equipment?

Saint Kitts and Nevis has limited doctors and modern medical equipment. In the event of a serious illness or accident emergency, evacuation will be required to provide the adequate level of medical care. The country does not have the equipment to perform CT scans, MRI scans and other specialized diagnostic tests.
