

Samoa communication network base station cost price

Overview

Is LTE available in Samoa?

Samoa has one of the highest rates of mobile phone coverage in the Pacific region. LTE is available in Samoa, with Digicel Samoa having completed its LTE network in September 2020. BlueSky Samoa (now Vodafone Samoa) also launched LTE in 2017.

Why is Samoa a good place to buy a mobile phone?

Samoa is a good place to buy a mobile phone due to affordable prices and good coverage. The advent of competition in the mobile market saw prices fall by around 50% and network coverage increase to more than 90% of the population. Samoa boasts one of the highest rates of mobile phone coverage in the Pacific region.

How did Samoa become a telecom country?

Samoa was one of the first Pacific Island countries to establish a regulatory infrastructure and to liberalise its telecom market. In 2006, it became the first country in the region to see the market entrance of Digicel, which has since launched services in other Pacific nations.

How much does Starlink cost in Samoa?

This avoids roaming charges and enables the \$139 Tala per month unlimited residential plan. Tariffs for businesses and government offices are listed on Starlink's website. Selling Starlink units in Samoa without prior approval from the Regulator is illegal.

What is the internet connection like in Samoa?

The internet connection in Samoa has been improved with the availability of two new submarine cables in 2018 and 2019. These, combined with the Samoa National Broadband Highway (SNBH), have helped to reduce the high costs previously associated with internet access and have improved internet

data rates and reliability.

Does SpaceX have a telecommunication license in Samoa?

The Government of Samoa has officially granted a telecommunication license to SpaceX, enabling Starlink Samoa Ltd to provide high-speed Internet services and equipment in the country. This endorsement will enhance connectivity for Samoan residential and business users. Customers can order directly from Starlink's website.
