

Saudi Infrastructure Company Battery Cabinet

Overview

Is Saudi Arabia developing a large-scale battery storage project?

The project is among several large-scale battery storage initiatives being developed in Saudi Arabia. In an ongoing procurement, the Saudi Power Procurement Company (SPPC) is tendering four 500 MW / 2,000 MWh BESS projects.

What is Saudi Arabia's battery storage program?

The projects mark the first phase of Saudi Arabia's ambitious battery storage program. It is designed to support its 50% renewable energy goal by 2030. Each 500 MW facility will operate for four hours, providing 2,000 MWh of total power capacity, said the SPPC.

What does BYD energy storage mean for Saudi Arabia?

BYD Energy Storage and Saudi Electricity Company (SEC) have signed a contract to deliver the world's largest grid-scale energy storage project totalling 12.5GWh. This milestone supports Saudi Arabia's Vision 2030, which targets 50% renewable energy in the national mix by the end of the decade.

Why is energy storage important in Saudi Arabia?

Energy storage is a vital component of this transition, providing grid flexibility and enabling the integration of intermittent power sources such as solar and wind. The project is among several large-scale battery storage initiatives being developed in Saudi Arabia.

Who is Saudi power procurement Company (SPPC)?

A Saudi Arabian entity that has been tasked with procuring electricity generation projects has commenced the process. Saudi Power Procurement Company (SPPC) is licensed as the sole buyer of electrical energy. The government is soliciting bids to develop four battery energy storage system (BESS) projects.

How many bidders are in Saudi Arabia's 8GWh Bess project?

The Saudi Power Procurement Company (SPPC) has released a list of 33 prequalified bidders for its 8GWh BESS project. The projects mark the first phase of Saudi Arabia's ambitious battery storage program. It is designed to support its 50% renewable energy goal by 2030.
