

Senegal power generation solar panel manufacturer

Overview

Does Senegal need a solar power plant?

Senegal's power sector has been historically reliant on costly fuel imports, with about 80 percent of its energy mix being oil-based. "The Kael and Kahone solar power plants exemplify our commitment to supporting Senegal's transition to cleaner, more affordable energy, while creating business opportunities for local communities.

How many photovoltaic power plants are in Senegal?

ENGIE, Meridiam and FONSIS (Senegal's Sovereign Strategic Investment Fund) announce the commissioning of two photovoltaic power plants in Senegal with a total production capacity of 60 MW – Kahone Solaire SA (35MW) and Kael Solaire SA (25MW) – located respectively in the regions of Kaolack and Diourbel, in the center of the country.

Is ten Merina a solar power project in Senegal?

This is Meridiam's second solar power project in Senegal, delivering an additional reliable supply of low-cost and low-carbon electricity. Overall, Ten Merina is a significant contributor to Senegal's installed solar PV capacity and is providing clean and affordable power to more than 200,000 Senegalese people.

How much solar power does Senegal have?

The availability of sunny hours per year is around 3,030 for most parts of Senegal, with annual solar radiation of 8.3 kilowatt-hours per square meter per day. 12 The annual generation per unit of installed PV capacity in Senegal is approximately 1600-1800 KWh/kWp/year. 3.

What is Scaling Solar in Senegal?

These plants are part of the Scaling Solar initiative in Senegal, jointly led by the Senegalese authorities and the International Finance Corporation (IFC),

which aims to promote investment in solar energy. These are the first electricity generation projects by private operators to be tendered in Senegal.

How much does electricity cost in Senegal?

As per SENELEC's (national electricity company of Senegal) current rate, the price of electricity for households in Senegal is 0.2223 USD/kWh. The electricity price for businesses is 0.3136 USD/kWh. 4 As per survey reports, nearly 55% of the population is connected to an electricity supply that worked most or all of the time.
