

Slovakia safe energy storage lithium battery

Overview

What is Slovakia doing with electric car batteries?

Slovakia is following the trend by making progress in development and production of electric car batteries. After launching of a new smart battery for electric cars by InoBat Auuto, the National Battery Centre was established. 8. March 2021 Slovakia is following the trend by making progress in development and production of electric car batteries.

What is Slovak energy storage?

It is an innovative way of storage of electric energy generated from renewable sources, such as solar or wind. This is a significant contribution of Slovak research into development of next-generation batteries which will be, on one hand, of high performance, safe and sustainable, and on the other hand affordable.

Who created the Slovak Electric Vehicle Centre?

The Centre was established thanks to the representatives of several sections of Slovak Academy of Sciences, The Slovak University of Technology in Bratislava, Technical University, Košice, University of Pavel Jozef Šafárik in Košice, Žilina University in Žilina, Automotive Industry Association and Slovak Electric Vehicle Association.

Is Slovakia facing a shortage of R&D workers?

Strategy, es-pecially applying to the automotive industry. It is clear that Slovakia is facing a shortage of critical workers in R&D, with only aroun
