

Small volume and large capacity lithium battery pack

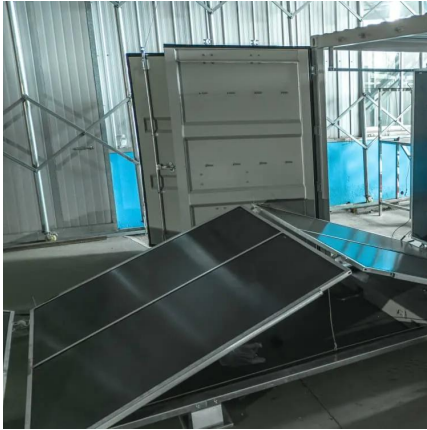

Overview

These packs are made of multiple Li-ion cells (like 18650 or 21700) connected in series and/or parallel to provide specific voltages and capacities. Whether you need a 7.4V, 11.1V, or 14.8V battery pack, understanding their structure, chemistry, and configuration is crucial.

Small volume and large capacity lithium battery pack

[Introduction: What Is a Lithium-Ion Battery Pack?](#)

Whether you need a 7.4V, 11.1V, or 14.8V battery pack, understanding their structure, chemistry, and configuration is crucial. In this guide from A& S Power, we'll explain the different types of Li ...
