Sodium battery bms

What is the importance of a BMS for Lithium/Sodium batteries

This whitepaper is about the what and why of the BMS in Lithium (Li-Ion) or Sodium (Na-Ion) batteries. Lithium, and Sodium as well, is interesting because of its high energy density.

Balancing Sodium batteries: active / passive, when to start, top

We can test out the balancing of this 4s sodium battery at different voltages, which works great. But even here, the 30mA passive balancer will take a long time to balance out this small battery.
