

# Solar Dealer System

## Overview

---

What is the solar dealer program?

The Solar Dealer Program (SDP) was created to help solar companies connect with customers and sell more solar PV systems. The program provides marketing and technical support to participating solar dealers, who sell and install solar PV systems.

What does a solar dealer do?

They act as knowledgeable and trustworthy guides, assisting customers throughout the solar journey. Solar dealers provide valuable insights, educate customers about the benefits of solar power, conduct assessments, facilitate installations, and ensure customer satisfaction.

What makes a good solar panel dealer?

Solar panel dealers must be able to effectively communicate with potential customers, and they must have a thorough understanding of the products they are selling. Not only that, but dealers must be able to provide customer service and support after the sale.

How do I get a solar dealer program?

You'll need to find a reputable solar company that offers dealer programs in your area. Once you've found a few companies that you're interested in, you'll need to contact them and inquire about their dealer program requirements.

Can I become a commercial solar dealer?

Sunnova recently established opportunities for those who want to expand their solar panel business to become a commercial solar dealer, setting you and your team up for broadened success.

How can I become a Sunnova solar dealer?

To become a Sunnova solar dealer, you can combine your business' local expertise with our national scale. This will allow you to fully take advantage of the rapid growth in the American solar industry.
