

Solar panel exports have recently been blocked

Overview

Under the enforcement of the Uyghur Forced Labor Prevention Act (UFLPA), US Customs and Border Protection has reportedly excluded Longi solar modules made with Tongwei polysilicon from entering the US market, according to a recent industry note from Roth Capital Partners. Will LONGi Solar modules be banned from the US market?

From pv magazine USA Under the enforcement of the Uyghur Forced Labor Prevention Act (UFLPA), US Customs and Border Protection has reportedly excluded Longi solar modules made with Tongwei polysilicon from entering the US market, according to a recent industry note from Roth Capital Partners.

Are Chinese-made solar panels entering the market?

A Reuters report shared that Chinese-made solar panels detained by U.S. Customs for months have begun to enter the market. After months of detaining solar panel shipments from major suppliers based in China, U.S. Customs and Border Protection has released large quantities of solar components to the market, according to a Reuters report.

Are Chinese solar panels avoiding tariffs?

Roula Khalaf, Editor of the FT, selects her favourite stories in this weekly newsletter. The US commerce department on Friday said it has found Chinese solar manufacturers have been avoiding tariffs by assembling panels for export to America in south-east Asia.

Will customs 'tricky' if solar companies don't have stable supply chains?

The survey indicates that Customs will be taking a strong enforcement approach and could be “tricky” to answer for small to medium-size solar companies that don’t have stable supply chains, Roth Capital Partners LLC wrote in a note to clients Monday.

Is the solar industry closing data gaps?

“This seems like it’s CPB’s way of saying industry hasn’t closed data gaps yet.” The Customs bureau’s website shows that since June 2022 the agency has detained more than \$2 billion worth of products categorized as electronics, which are primarily solar panels according to industry analysts.

Did Biden pause solar imports to evade tariffs?

The Senate has approved a measure that would reinstate tariffs on solar panel imports from several Southeast Asian countries after President Joe Biden paused them in a bid to boost solar installations in the U.S. (AP Photo/Julio Cortez, File) The Biden administration is ending a key exemption that allowed solar panel imports to evade tariffs.
