

# Solar panel rust

## Overview

---

What is a rust large solar panel?

A solar panel which converts sunlight into energy. The amount of energy generated is dependent on the sun's intensity and angle to the panel. The RUST Large Solar Panel is a deployable electrical generation device used to create power for base security and light systems.

Where can I find a large solar panel?

The Large Solar Panel uses the sunlight to create Electricity. It can be found in Crates, Sunken Chests and corpse of Oil Rig Scientists. Once obtained and researched, it can be crafted while standing in AoE of a Workbench Level 1 using 1 Tech Trash and 5 High Quality Metal. The crafting time is normally 30 seconds.

What is a solar panel?

The definition of a solar panel is a group of silicon panels under a glass substrate. The glass substrate of a solar panel allows light to shine upon the silicon surface and produce electricity from the movement of electrons on the atomic level.
