

Solar photovoltaic panels are renewable

Overview

Because the sun is an infinite source of light and heat, solar panels fall into the category of renewable energy technologies. Solar power is generated using sunlight, which is available globally and is not depleted by usage.

Solar photovoltaic panels are renewable

End-of-Life Management: Solar Photovoltaic Panels: IEA PVPS Task 12: PV

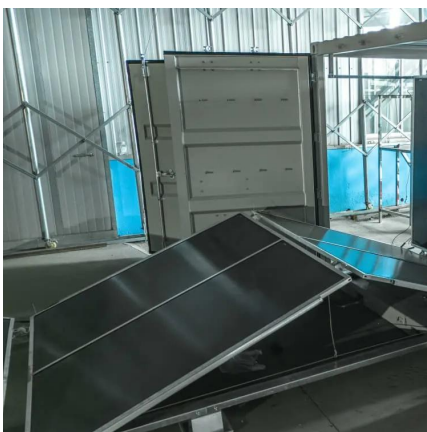

This report, prepared jointly by the International Renewable Energy Agency (IRENA) and the International Energy Agency Photovoltaic Power Systems Programme (IEA-PVPS), is the first ...
