

Solar photovoltaic panels on rural rooftops in Latvia

Overview

Various funding programs support rooftop solar PV installation, but concerns arise over the focus on suburban areas, neglecting densely populated cities. Amendments to electricity laws introduce net metering and net billing systems, with net metering being phased out by 2029.

Solar photovoltaic panels on rural rooftops in Latvia

Generator and solar panel field in green landscape of Latvia, ...

Get Generator and solar panel field in green landscape of Latvia, aerial vertical view that includes generator & panel, from our library of Industrial Stock Footage. Get unlimited downloads ...
