

# **South African Energy Storage Equipment Factory**

## Overview

---

Who is supplying battery energy storage systems in South Africa?

Source: Eskom. A Chinese green technology company has been contracted to supply battery energy storage systems (BESS) for the Oasis 1 cluster of projects in South Africa. Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage.

Is Envision Energy the largest energy storage system supplier in South Africa?

Envision Energy announced the contract with the EDF Group, to supply three battery energy storage systems (BESS) amounting to 257MW of capacity and 1,028MWh of storage. The company claims this marks the largest BESS order in South Africa and positions it as the first energy storage system supplier in the region to secure a GWh-scale order.

How much does a battery storage project cost in South Africa?

The commitment to battery storage solutions is becoming increasingly significant as South Africa faces ongoing energy challenges and seeks to augment the integration of renewable power sources. The estimated cost of the Mogobe BESS project stands at ZAR 3bn (US\$170m), with the primary funding — about 90% — sourced from non-recourse project debt.
