

# **Swiss lead-acid energy storage battery manufacturer**

## Overview

---

Who makes lead-acid batteries?

East Penn Manufacturing Company, Inc specializes in lead-acid batteries for various applications, such as automotive, marine, commercial, and industrial. It is one of the largest single-site battery manufacturers in the world with over 9,000 employees and manufacturing facilities covering more than 2 million square feet.

Who makes valve regulated lead-acid (VRLA) batteries?

CSB Energy Technology Co., Ltd. is a leading manufacturer of valve-regulated lead-acid (VRLA) batteries and related products. These batteries are designed for high performance and long service life, making them a reliable and cost-effective energy storage solution.

What is Swiss clean battery?

Swiss Clean Battery focuses on the stationary fields of application of “home storage” and “industrial buffer”, because the demand and contribution to solving problems in the energy transition is equally great here. An uninterrupted power supply, i.e. the balance between supply and demand, is essential for the power grid as a whole and for industry.

Why should you choose Swiss clean batteries (SCB)?

Offering 50% better environmental performance and extended durability, SCB supports renewable energy transitions with advanced energy storage solutions and one of Europe’s first mass production facilities. Swiss Clean Battery AG (SCB) is a pioneering manufacturer of solid-state batteries based in Frauenfeld, Switzerland.

What is the future of the lead-acid battery market?

Latin America & Africa: Emerging markets driven by infrastructure development and power backup needs. These companies play a crucial role in

shaping the future of the lead-acid battery market, which is expected to remain a key component of global energy solutions due to its reliability and cost-effectiveness.

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.
