

# **Türkiye quality energy storage battery manufacturer**

## Overview

---

Where are batteries made in Turkey?

Another vital node in Turkey's battery manufacturing sector is Izmir. Known for its robust industrial base, Izmir hosts several facilities specializing in the production of lifepo4 batteries and solar battery manufacturers in Turkey.

What makes Turkey a great battery manufacturer?

The battery manufacturing industry in Turkey is marked by a blend of established giants and dynamic newcomers, each contributing uniquely to the country's reputation as a burgeoning hub in the global battery market.

Why is Türkiye a key player in energy storage?

As global investments in energy storage systems continue to grow, Türkiye has positioned itself as a key player, with two cell production facilities and nearly 100 lithium-ion battery production factories of various scales actively operating across the country.

Is Türkiye ready for a new battery industry in 2025?

Looking ahead to 2025, Usta predicted an influx of new companies, both domestic and foreign, joining the industry, a testament to Türkiye's potential for energy independence and global competitiveness. The association is set to host another battery summit in October next year.

How many battery production facilities are there in Turkey?

New facilities capable of producing up to 5 gigawatt-hours of cells and batteries will be established in Ankara, Istanbul, Izmir, and Kocaeli, Usta said, adding that agreements signed this year alone exceeded \$1 billion in investments. With these new additions, the total number of battery production facilities in Türkiye will reach 11.

Will Türkiye's battery and storage power plants be approved next year?

However, Usta noted that despite draft regulations, the legal framework for battery and storage power plants is still evolving. The first approvals are expected next year. Türkiye's battery imports remained steady at around \$1.1 billion, similar to last year.
