

# **UAE Photovoltaic Panel Power Generation Plan**

## Overview

---

While being a major , the (UAE) has taken steps to introduce solar power on a large scale. However, solar power still accounts for a small share of energy production in the country. The country was the 6th top emitter per capita in the world in 2009, with 40.31 tonnes, but is planning to generate half of its electrical energy by 2050 from s.

## UAE Photovoltaic Panel Power Generation Plan
