

# **UK energy storage battery wholesale**

## Overview

---

Who is battery energy storage systems (Bess)?

We are a start-up organisation specialising in importing and distributing Battery Energy Storage Systems (BESS) to the UK market. Our primary focus is to serve installers, wholesalers, and Engineering, Procurement, and Construction (EPC) companies.

Who are the best energy storage battery companies in the UK?

1. BST POWER BST POWER is ranked as the leading energy storage battery company in the UK due to its outstanding performance and significant market presence. Established as a key player in the energy storage industry, BST POWER has been instrumental in shaping the UK's energy storage landscape.

How big is battery energy storage in the UK?

The UK had a total of 4.4GW of battery energy storage system (BESS) capacity as of June 2024. And the sector is braced for further significant growth, with the total capacity of projects in the pipeline rising from 50.3GW to 95.6GW between 2023 and 2024.

Are battery energy storage revenues increasing in Great Britain?

Battery energy storage revenues in Great Britain reached a rate of £88k/MW/year in January 2025, marking a 5% increase from December 2024 and the first back-to-back monthly revenue increase since early 2024. Source: Modo Energy Note: Monthly ME BESS GB revenues since January 2024.

Which battery companies supply GB?

LG Chem has supplied 420 MWh of battery system capacity, while Samsung SDI has contributed 370 MWh (see chart below). When it comes to the provision of battery cells to GB, Chinese companies are overwhelmingly dominant. CATL alone has supplied nearly 2.4GWh, with BYD (590MWh being the second biggest supplier.

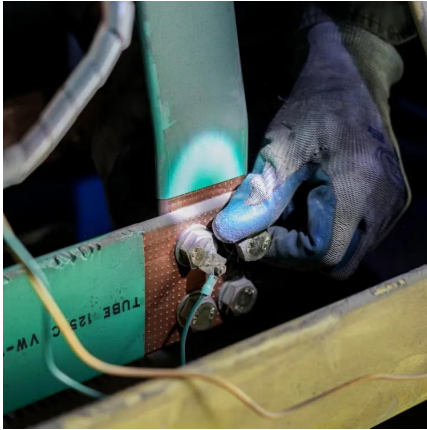

## How long do batteries last in Great Britain?

Average duration of batteries in Great Britain stood at 1.4 hours by the end of 2024. 98% of new battery capacity added in Q4 had a duration of at least two hours, highlighting a shift toward longer-duration storage for greater flexibility.
