

# **USA Volta Energy Storage Integrated Project**

## Overview

---

Does Volta manufacture lithium-ion batteries in North America?

With the close of its Series B, @OurNextEnergy1 has moved one step closer to realizing its goal of manufacturing lithium-ion cells and packs in North America. Volta identifies and invests in battery and energy storage technology after performing deep diligence with the support of unparalleled global research institutions.

Are Volta's portfolio companies hiring?

Volta's portfolio companies are hiring! Volta identifies and invests in battery and energy storage technology, including integration hardware and software, after performing deep diligence with the support of unparalleled global research institutions.

How much storage capacity does esvolta have?

Its total operational and in-construction projects total about 1.5 GWh of storage capacity. esVolta is a portfolio company of Generate Capital, PBC, a sustainable infrastructure company. This content is protected by copyright and may not be reused.

What is solid power's partnership with Volta?

"Our longstanding partnership with Volta has enabled Solid Power to build and operate a world-class all solid-state battery manufacturing line that today produces batteries designed to power longer range, lower cost and safer electric vehicles.

Which energy storage facility will provide resource adequacy support to Pacific Gas & Electric?

The energy storage facility in San Jose will provide resource adequacy support to Pacific Gas & Electric. An energy storage project at Monolith Substation, Tehachapi, CA. Image: Sandia National Laboratories esVolta announced it has

secured a \$110 million tax equity transaction with GreenPrint Capital Management.

How does Volta work?

Volta sources, validates, and develops the most promising technologies working with the members of our network of innovators, which spans the country from MIT to Stanford, includes every national lab and major university in the U.S., and extends to leading universities in the U.K., Germany, Japan, and China.
