

Ukraine s first new energy photovoltaic sites

Overview

In 2019, changes were announced to the Ukrainian energy market operations that have significant impacts on the growth and operation of large scale solar facilities in Ukraine. These include a new generous feed-in-tariff scheme and the requirement for solar energy facilities to provide their own energy generation forecasts. The head of the Ukrainian Association of Renewable Energy, writing in 2024, said that solar far.

Ukraine s first new energy photovoltaic sites

[Solar PV potential in Ukraine by location](#)

Explore the solar photovoltaic (PV) potential across 66 locations in Ukraine, from Shostka to Bilhorod-Dnistrovskyi. We have utilized empirical solar and meteorological data obtained from ...
