

Ukrainian Communication Base Station Wind Power Construction Company

Overview

How many wind power plants are there in Ukraine?

In 2024 the IEA suggested installing 11 GW more by 2030. By the end of 2017, 505 MW of wind power plants had been launched in Ukraine, with 138 MW remaining in the occupied territory of Donetsk and Luhansk regions, and another 87.8 MW left in occupied Crimea.

How many base stations are there in Ukraine?

"We've had more than 10 percent of our sites completely or partially destroyed," explains Sasha Ananyev, head of the network operation department at Vodafone Ukraine. That's roughly 1,400 base stations, and does not include base stations located in Donetsk and Luhansk, areas that have been occupied by Russia since 2014.

What percentage of Ukraine's base stations have been destroyed?

His view was shared by another Ukrainian telecoms provider, Lifecell, which also reported around 10 percent of its base stations being destroyed at its peak, at around 900 sites.

Does Ukraine have more wind power than Wales?

Ukraine has managed to build more onshore wind capacity than Wales despite being invaded by Russia, an industry body has said. RenewableUK Cymru said Wales risks falling behind the rest of the UK in the race to meet clean power targets, having built just four mini turbines since January 2023.

How much power did Ukraine have before WW2?

Before the war, Ukraine had around 55 GW of power station capacity, mainly coal, nuclear and gas. By 2024, Russian missiles and takeovers had reduced this to 20 GW. Of the 700 wind turbines in Ukraine, Russian drones damaged 11, including a 4 MW turbine in the 40 MW Dnistrovskia wind farm in January 2024.

Is DTEK a resistance to Russian efforts to throw Ukraine into darkness?

Our latest report documenting DTEK's extraordinary resistance to Russian efforts to throw Ukraine into darkness. DTEK Group is the largest private investor in the energy sector in Ukraine, with over €12 billion in invested capital since 2005, employing 55,000 people.
