

Ultra-high voltage intelligent energy storage power station

Overview

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been connected to the grid in Ngari prefecture, Southwest China's Xizang autonomous region.

Ultra-high voltage intelligent energy storage power station

What are the ultra-high cycle energy storage power stations?

By harnessing the potential of ultra-high cycle energy storage power stations, we take significant strides in ensuring that tomorrow's energy arrives from cleaner and ...
