

Vanuatu outdoor power supply parameter configuration

Overview

What is the standard voltage in Vanuatu?

The standard voltage in Vanuatu is 230 V, and the standard frequency is 50 Hz. If you're coming from a country that uses a different voltage, you may need a voltage converter or transformer in addition to a plug adapter. What is my country's voltage and frequency?

- Select it from our list.

Does Vanuatu need a power adapter?

Vanuatu uses power plugs and sockets of Type I, with a standard voltage of 230 V and a frequency of 50 Hz. If your devices are compatible with these specifications, you will not need a power adapter.

Should I use a surge protector when charging my devices in Vanuatu?

Always use a surge protector when charging your devices in Vanuatu to prevent damage from power fluctuations. When in Vanuatu, avoid using high-wattage devices (e.g., hair dryers, curling irons, and straighteners) without a proper voltage converter, as they can cause damage to your devices or the electrical system.

What plugs are used in Vanuatu?

We've got you covered with this comprehensive guide on electricity in Vanuatu to ensure all of your electronic devices stay fully charged and functional during your stay. Plugs for Vanuatu are: Type I: a three-pin plug commonly used in Australia, New Zealand, and some Pacific islands.
