

What are the 5G base stations in China

Overview

How many 5G base stations are there in China?

[Photo/VCG] BEIJING - The number of 5G base stations in China exceeded 4.04 million at the end of August, data from the Ministry of Industry and Information Technology showed Wednesday. The figure accounted for 32.1 percent of the total number of mobile base stations nationwide. The number of 5G mobile subscribers hit 966 million in China.

How many 5G terminals are there in China?

The number of 5G terminal connections in China has exceeded 310 million, accounting for more than 80 percent of the world's total, according to Liu. During the 13th Five-Year Plan period (2016-2020), China built the world's largest optical-fiber and 4G network, with over 99 percent of the villages across the country connected to both technologies.

What is the range of a 5G base station?

5G base stations use millimeter waves that are extremely limited in range. Each 5G base station has a range of between 800-1000 feet, or 0.15-0.19 miles. It makes up for its limited range by surpassing 4G in other key areas: data transfer speeds (bandwidth), latency, and capacity.

Where is 5G used in China?

The official also said that 5G coverage reached 97% of counties and 40% of rural towns across the country. Xie said 5G has already been used in 22 industries, including industrial manufacturing, mining, ports, medical care, education and entertainment.

How many 5G stations are there in India?

The country now hosts 22.6 5G stations for every 10,000 residents, CGTN reported. The 5G mobile networks offer twice as fast data download speeds as its predecessor 4G connections and improved traffic capacity while reducing

latency.

How many 5G subscribers are there in China?

The number of 5G mobile subscribers hit 966 million in China. The country has seen its 5G network and commercialization develop rapidly in recent years. Its 5G network now covers every city and town, as well as more than 90 percent of villages. China's 5G standard essential patent declarations account for 42 percent of the global total.
