

What battery cabinet factories are there in Morocco

Overview

Which Chinese lithium battery companies are based in Morocco?

Since 2023, several Chinese lithium battery industry chain companies, including CATL, Gotion High-Tech, Sunwoda, BTR, Huayou Cobalt, CNGR Advanced Material and Tinci Materials, have collectively invested in Morocco and built factories. The battery industry chain centered around LFP is forming rapidly.

Does Morocco have a lithium battery industry?

With the increasing demand for lithium batteries worldwide, the Moroccan government's initiative to attract investments in the lithium battery industry has gained significant traction. One of the latest developments in this sector is the investment by BTR New Material Group in Morocco.

Will China build a battery cell factory in Morocco?

The Chinese battery cell manufacturer and Volkswagen partner Gotion High-Tech has signed an investment agreement with the Moroccan government for a battery cell factory in the country. The initial production capacity will be 20 GWh, but this figure could increase significantly at a later date.

Will Morocco build a battery factory?

Gotion High-Tech and the Moroccan government had already signed a letter of intent for the battery factory a year ago. Even then, there was talk of up to 100 GWh, but the information available was still thin on the ground. For example, no dates were given for the factory construction schedule.

What's going on with EV batteries in Morocco?

The battery industry chain centered around LFP is forming rapidly. In June this year, the Moroccan government announced that Gotion High-Tech would invest \$1.3 billion (US) to build a gigafactory for EV batteries.

Does CATL have a battery production base in Morocco?

CATL has already planned over 100 GWh of production capacity at its European factories. Additionally, Sunwoda is also setting up a battery production base in Morocco. The number of material manufacturers investing in Morocco is even larger.
