

What is an outdoor dual-band smart base station

Overview

Why should you choose TP-Link outdoor wireless base station?

With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage. The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

Can the wbs510 be paired with a TP-Link dish antenna?

Where long- distance wireless data transmission is necessary, the WBS510 can be paired with a TP-LINK dish antenna, allowing it to transfer data over distances of up to 50 km *. Pharos Base Stations works seamlessly with TP-LINK dish and sector antennas to provide efficient PtP and PtMP data transmission.

What makes kg-b55 a good base station?

The KG-UV920P-A makes the KG-B55 base station even better with its large, dual frequency LCD display and a 3-color selectable backlight, handheld speaker mic with full featured backlit keypad, dual speakers built into the radio chassis and voice prompts to assist with menu navigation.

What makes the Pharos series a good base station?

To maximize performance and stabilize long distance wireless transmission, the Pharos Series is built with Qualcomm Atheros enterprise level chipsets, high gain-antennas, and high-power amplifiers. In addition to excellent internal components, Pharos Series Base Stations also feature specially designed, weatherproof enclosures and PoE capability.

What is the Wouxun kg-b55 dual band UHF/VHF base station?

The Wouxun KG-B55 Dual Band UHF/VHF base station combines the ever popular KG-UV920P-A dual band mobile radio with dedicated a power supply

into one, solid, standalone unit loaded with powerful features! Pre-wired, mounted together, complete with carrying handle, the KG-B55 provides the full base station operation at a minimal cost!.

Is the kg-b55 a dual band radio?
