Can Bolivia become a green energy superpower?

The partnership between MOBI and EnergyX highlights the thriving innovation environment in Bolivia, and will take the country one step closer to becoming a green energy superpower.

How many batteries do you need for a solar system?

You can purchase multiple batteries, but the number you need depends on the size of your system, the number of circuits that need to be backed up and the duration of backup you want. That’s one reason why the majority of residential solar panel systems in the U.S. are “tied” to the energy grid instead.
