

Where to buy solar energy on site

Overview

Home Depot makes buying solar panels simple through its website or your local store. If you want professional installation, it'll pair you with licensed, insured installation professionals for both large and small projects. Lowe's offers a one to two-year guarantee on labor. Where can I buy solar equipment?

Like wholesale resellers, Amazon is another way to purchase solar equipment directly. Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.).

Where can I buy solar panels?

Like the national companies, installers on EnergySage provide turnkey quotes that include equipment, financing, and installation. If you want to purchase equipment for a DIY project or install a small, portable off-grid system, wholesale resellers or Amazon may be the most suitable option. What is the best place to buy solar panels for you?

.

Where can I buy a solar panel kit?

Many people commonly purchase solar panel kits from Amazon that include the majority of equipment necessary for getting a solar panel system up and running (i.e., wiring, solar panels, the inverter, etc.). Most solar panel kits are best suited for smaller applications, such as an RV or boat instead of a home.

Should I buy a solar panel system from a large company?

One popular option for installing a residential solar panel system today is contracting through a large solar company, such as SunRun. There are certain advantages to buying a solar panel system from a large solar company.

Can you buy solar panels from a wholesale reseller?

Wholesale resellers sell equipment online to consumers looking to go solar. While labeled as “wholesale,” these items will still typically include a markup so that the company selling the product will make a profit. It’s currently not possible for consumers to purchase wholesale solar panels directly from panel manufacturers.

Where can I buy solar energy if I'm a DIYer?

With Sam’s Club, you get savings, but you don’t need to worry about dealing with a solar company, which is great if you want to go the do-it-yourself route. Home improvement stores, like Lowe’s and Home Depot, are another good choice for DIYers who want to set up their own solar energy systems.
