

# **Wholesale of energy storage systems for industrial and commercial applications in Ireland**

## Overview

---

What is energy storage Ireland?

Energy Storage Ireland is a representative association of public and private sector organisations who are interested and active in the development of energy storage in Ireland and Northern Ireland. Delivering the energy storage technologies to enable a secure, carbon free electricity system on the island of Ireland by 2035.

Can energy storage save money in Ireland?

By contributing to security of supply, helping to support renewable capacity, and displacing fossil fuels in the balancing market, energy storage can deliver a net saving to end consumers in Ireland of up to €85m per year.

What are commercial and industrial energy storage solutions?

Our commercial and industrial energy storage solutions offer from 30kW to 30+MW. We have delivered hundreds of projects covering most of the commercial applications such as demand charge management, PV self-consumption and back-up power, fuel saving solutions, micro-grid and off-grid options.

Which energy storage systems are best for commercial & commercial facilities?

AlphaESS industrial and commercial energy storage systems can provide the one-stop C&I energy storage solution for commercial and industrial facilities. Our solar PV and battery storage solution help maximize energy independence and reduce grid power demand. Residential & commercial battery energy storage systems available.

What is a C&I energy storage system?

A C&I (Commercial and Industrial) energy storage system is an energy storage solution designed for commercial and industrial applications, such as factories,

office buildings, data centers, schools, and shopping centers.

What is C&I battery energy storage?

Store. Save. Sustainable. One of Ireland's largest C&I Battery Energy Storage Solutions (BESS), seamlessly integrated with on-site solar PV that enables businesses to generate energy on-site, store the energy and use it in times of high demands or peak rates.
