

Zambia power generation equipment container

Overview

What is Zambia's Electricity generatio & demand profile?

r a ministerial statement on the status of Zambia's electricity generatio and demand profile. Madam Speaker, electricity remains a major source of energy in our country. The Electricity Supply Industry (ESI) in Zambia comprises of power generation plants owned and operated by ZESCO Limited, the national electricity ut.

Does Zambia need hydropower?

In recent years, Zambia has been able to improve its electricity supply but remains largely dependent on hydropower. This dependency represents a risk to the security of supply, as evidenced by the return of scheduled load shedding at the end of 2022 until February 2023, due to low water levels on the Zambezi River.

What is PV production & how does it work in Zambia?

In that case, the PV production is used to reduce the electricity bill and/ or the diesel fuel bill. As of 2022, the cost of diesel in Zambia was around USD 1.5/litre (Global Petrol Prices, sd) and the efficiency of a generator varies between 25% and 35% if operated at at least 30% of its capacity (Skyllas-Kazacos, 2012).

What will Zambia's energy demand look like in 2040?

The government anticipates that peak demand will be at 8,000 MW by 2030 and 10,000 MW by 2040 (from around 3,000 MW in 2022). It also projects that the demand will be largely driven by mining and agricultural consumers and not residential consumers as projected in the COSS (Government of Zambia, 2022). 4. Zambia's renewable energy landscape.

How much power does Zambia have in 2021?

Thus, the installed capacity in Zambia in 2021 is composed as follows: 2,705

MW in hydro-power (including 1,080 MW for the Kariba complex and 990 MW for Kafue Gorge), 330 MW in coal, 85 MW in diesel, 110 MW in heavy oil and 89 MW in solar. In total, about 84% of the installed capacity is renewable.

Is Zambia a copper producer?

Zambia is the second largest producer of copper in Africa and its economy is heavily dependent on copper mining (at least 70% of total exports). Efforts to diversify economic activity or invest revenues from mining to other sectors of the economy have been limited.
